

Automates the Exchange of Mission-Critical Documents

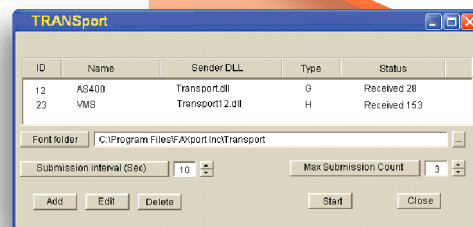

TRANSport streamlines your organizations' mission-critical applications by providing an efficient electronic document delivery mechanism.

TRANSport provides automatic electronic delivery of mission-critical documents such as invoices, financial statements, purchase orders etc.

With TRANSport, you streamline your organizations' mission-critical applications by providing an efficient electronic document delivery mechanism. This gives you significant benefits including: immediate or scheduled delivery, real-time delivery confirmation and tracking, mail merge and forms overlay, fax broadcasting, as well as many more features.

By implementing TRANSport you gain significant benefits:

- Better response time to suppliers and customers.
- Improved reliability by elimination of inefficient and manual processes.
- Dramatic reduction in document delivery costs.
- Reduction in "Days Sales Outstanding" (DSO), by streamlining business-critical document processing.
- Reduction in the need for stand-alone fax machines.

Streamline your organization with TRANSport

TRANSport processes documents from multiple sources, and sends them to various destinations. The system operates under the most popular computing environments and applications, such as:

- Open VMS
- Unix / Linux
- NT
- AS400
- IBM Mainframes
- DOS / Novell

This data is then merged with the appropriate form, processed, and sent out via fax, e-mail or SMS.

Industries throughout the world use TRANSport for data transfers

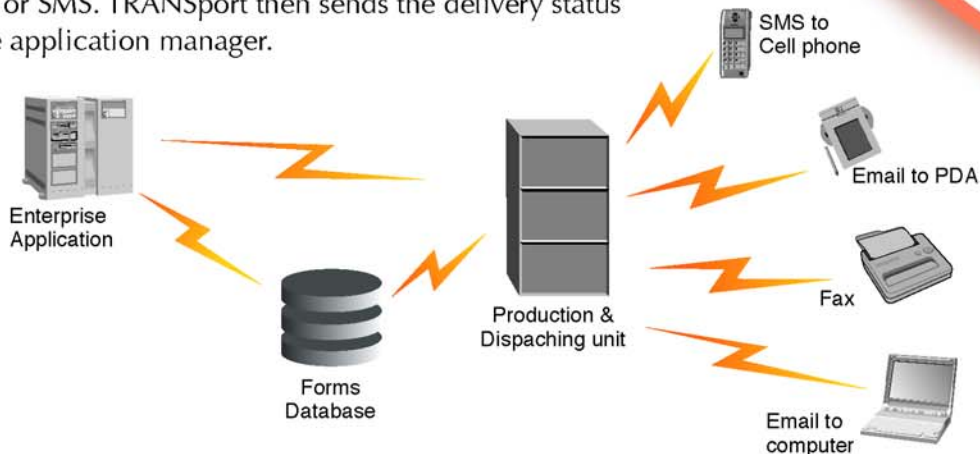

For more information please
contact your local Rep:

Or look us up at
www.faxport.com for a
reseller in your area.

TRANSport's "fetcher" receives the data from different applications and sources using the following methods: FTP, POP3, MAPI, IMAP, SQL, XML and folder scanning.

This data is then merged with the appropriate form, processed, and sent out via fax, e-mail or SMS. TRANSport then sends the delivery status message to the application manager.

Uniport Ltd. Experienced Supplier of Universal Messaging Technology to Enterprises

uniport Ltd. is an experienced, well-established supplier of enterprise fax and universal messaging solutions. Our customers range from large distributed user-base organizations to small workgroups, including government institutions, manufacturing companies, universities, financial institutions as well as service-oriented companies.

A Comprehensive Family of Universal Messaging Products

- **SecurePort** - Protects leakage of confidential documents from the organization. It monitors and protects information sent out from any communication channel/port, such as e-mail, Internet chats, fax machines, printers, securing all possible data leaks.
- **PRINTport** - A secure enterprise print management system. PRINTport was designed for organizations that need a mechanism to control and secure print jobs on their public shared printers, provide billing information, and save money.
- **SMSport** - Enables enterprise users and applications to send and receive messages "To" and "From" mobile phones, extending the mobile Short Message Service into a robust business solution.
- **FAXport Connector for SAP / Oracle Application** - Automates the delivery of mission critical documents by providing powerful electronic document delivery mechanism from ERP systems.
- **Xport & FAXport4HP** - FAXport for Xerox & HP Multifunction office machines and LAN Scanners, enable users to access documents and send outbound faxes directly from the Xerox & HP devices.
