

Dear Value Added Partner,

Thank you for your interest in the Uniport Partner Program. We at Uniport Ltd. are committed to providing our program participants with the tools, knowledge, and products that are necessary to successfully compete in today's dynamic electronic communications environment. As a Uniport Partner, you'll be equipped to provide your customers with what they've been asking for – real solutions to real problems.

Uniport is a developer and supplier of "**MAXport**" - an advanced state of the art enterprise communications server. MAXport's is composed of five main systems that include:

SecurePort – is an enterprise solution that protects confidential documents from leaking out; It identifies and prevents documents leaks before they occur, and limits document distribution only to designated parties. It performs real-time auditing and blocking of unauthorized document distribution, and provides complete audit trail of user and distribution activity. SecurePort is capable of protecting information sent out from any communication channel / media, as, e-mail, web, fax machines, printers, removable media, and wireless communications.

FAXport - IP Fax messaging system allows users from their desktop and anywhere on the network - to prepare, preview, send, and receive faxes. FAXport is a feature-rich technology that provides economical network faxing capabilities and improved productivity, eliminating the need for dedicated fax machines and phone lines. FAXport integrates with most enterprise IT resources, as: E-mail servers, SAP ERP, Production fax, Multifunction office machines, secure networks, Fax over IP networks, and mobile applications.

PRINTport – PRINTport is a secure enterprise print management system, for the Small, Medium & Enterprise business. It was designed for organizations that need to provide their users with optimal printing resources, while keeping complete control over printing related expenses, and printing confidentiality - including billing information. PRINTport saves the organization significant amounts of printer-associated costs.

SMSport - extends the mobile Short Message Service (SMS) into a robust business solution. SMSport allows desktop and back-office applications to send and receive SMS messages to and from mobile phones conveniently. By providing prompt access to the corporate intranet; E-mail Server, Fax Server, and enterprise database, SMSport becomes a powerful communication tool that improves services, working methods and business efficiency, between the organization and its employees, customers, suppliers, and other affiliates.

WINport - Dial-Out Networking software provides high secure and cost-effective access to online services, and terminal applications through shared modems. By sharing these resources, organizations: Reduce network complexity, Lower deployment costs, Enhance security, and Minimize maintenance. Networks that employ modem ports or channels for inbound communication can share these resources using WINport.

Uniport Ltd. selects a limited number of channel partners in geographic markets worldwide to become authorized Uniport Partners. We believe that quality products coupled with strong marketing, sales, and technical support provide the backbone for mutual success.

Some of the benefits you'll enjoy as a Uniport Partner include:

Committed to Success

At Uniport, we understand and embrace the meaning of what it takes to be a true partner – commitment. Our attention to providing you the tools, support and programs you need to be successful is what our Uniport Partner Program is all about.

The program is designed specifically to help our partners increase sales and build current and future business. As a Uniport Partner, you'll be given the knowledge, product and tools you need to offer your customers what they've been asking for – real solutions to real problems.

Choosing the right products to sell is an important decision. Your choice to become a Uniport Partner is a decision your customers will be happy you made.

- ✓ **Competitive Advantage** — Uniport's family of products provides to the enterprise a true secure universal communications solution, including, leak prevention system, enterprise fax, mobile business solutions, and enhanced printing systems, all for very attractive prices.
- ✓ **Profit potential** — Our products are priced aggressively, to reward our resellers, assuring high margins to our partners. We do not publish our pricing to end users, because we want to avoid price cutting and loss of profits to our partners.
- ✓ **A recognized leader** — FAXport is one of the leading Fax Servers in the market; it is installed in over 35,000 customer sites around the globe, and over 290,000 copies were sold under an OEM agreement with Xerox. WINport is a leading solution in its area, most large and small financial institutions in North America use WINport.
- ✓ **Strong partnerships that produce sales** — Uniport Ltd. has development and marketing alliances with leading secure messaging and fax developers including: Brooktrout, Dialogic, Intel, 3Com, Xerox, and others.
- ✓ **Training and Support** - FAXport training on CD-ROM, a comprehensive technical knowledge base on Uniport's Web Site, and Uniport's Support Agreement.

Uniport Corporate Background

Uniport Ltd. is a developer and supplier of enterprise secure messaging systems, secure printing systems, and secure universal communications solutions, including IP Fax and mobile systems.

Upon Uniport establishment in 2003, the company acquired from 3Com a line of IP fax messaging products "FAXport" - a well-known brand name in its industry. The acquisition included also an OEM agreement with Xerox that generated during the years 2001-2005 over 290 thousand FAXport OEM sales through Xerox.

To date Uniport is offering an advanced state of the art enterprise communications server "MAXport" that includes 4 systems: **SecurePort** – Information Leak Prevention System, **FAXport** – IP Fax Messaging System, **PRINTport** – Secure Print Management System, **SMSport** – Mobile Business Solutions Server

Some of our famous customers are: A-Life Medical, Alliance Insurance, American National Bank, Australian Water Services, Cable & Wireless, Cornell University, Credit Suisse First Boston, Dow Chemical Singapore, EDS Canada Inc., Exxon Mobil, Federal Reserve Bank, Hitachi Credit America Corp., Metropolitan Bank, Merrill Lynch, Morgan Stanley, Nortel Networks, Northeast National Bank, Tel Aviv Stock Exchange, Telia AB, Ticketmaster, Time Warner Cable, US TODAY, U.S. Court of Appeals, Verizon, Wells Fargo.

The uniqueness of Uniport is in its wide technical knowledge and experience in computer telephony technology. Uniport has the capabilities to integrate any back office application (legacy or Microsoft) with its Communications Server, providing an efficient electronic document delivery mechanism.
